Ajloun Castle, Houses of Rasun & Jerash day Tour

Jordan's countryside is littered with the ruins of great civilizations which have flourished and decayed over the centuries: Greek and Roman, Nabatean and Byzantine, Umayyad & Mamluk. And yet, there has always been another Jordan that has endured beyond the reach of empires, untouched by foreign invaders and unknown by tourists.

After visiting Ajloun Castle, [Qala'at Al-Rabad] fine example of Islamic architecture built in 1184 by Osama ibn Munqich, a nephew of Saladin, who defeated the Crusaders in 1187, a short distance away, in the heart of Ajloun forest, guests will have the opportunity to interact with local community by taking the Houses Hiking Trail of Ajloun ; This trail takes you through a tour of Ajloun's popular three houses -socio-economic projects implemented in Ajloun Forest Reserve -; The Soap House and The Biscuit House in Orjan village and the House of Calligraphy in Rasun village; On the way, you will hike through thick, healthy woodlands filled with oak, pistachio, and oriental strawberry trees; the Soap House where local women follow the traditional process of making Orjan pure olive soap , At the House of Calligraphy, you can take the first steps towards learning how to write some Arabic words. At The Biscuit House, you can visit the workshop where Tasali Jordanian delights are created.

Local homemade Brunch will be served during the trail using the area's delicious crops and fine herbs .

After Ajloun Trail you will be transferred towards **Jerash** ; Boasting an unbroken chain of human occupation dating back more than 6,500 years and hidden for centuries in sand before being excavated and restored over the past 70 years, Jerash is a fine example of the grand, formal and provincial Roman towns found throughout the Middle East.

One can walk beneath four imposing gates or down the "Street of Columns" north from the "Oval Plaza" while stepping over the tracks of the chariot wheels still visible in the paved stones.
