Abstract

Division in the light of the Qur'an, an objective study

Fayez ka'aid Ayed Ruwaili

University of M'utah, 2012

This study examines the verses that contained in the Division through the root of the word difference in terms of objectivity, the researcher has followed the inductive method, then the analytical, and then the deductive.

The researcher divided his study to an introduction, and an introductory chapter followed by three main chapters and conclusion, all of which have included the following:

Introduction:

contain the reasons for selecting the topic, the importance of research, questions that answered by research, previous studies, research methodology, and the methodology steps of the research .

The introductory chapter:

it is editing the linguistic meaning, and the terminology meaning of the division, also mentioned the verses contained therein.

Chapter I: The probing and the verses in terms of the types of division contained in the Koran.

Chapter II: It standing on the causes of the division among Muslims as well as it's implications.

Chapter III: served as a treatment after diagnosis, its the guidance of the Qur'an in ending the division among Muslims.

The conclusion:

in which the most important results reached by researcher, and also some recommendations.
